Datashader

Projection

- Variables, rangos, tipo de eje, resolución

Datashader

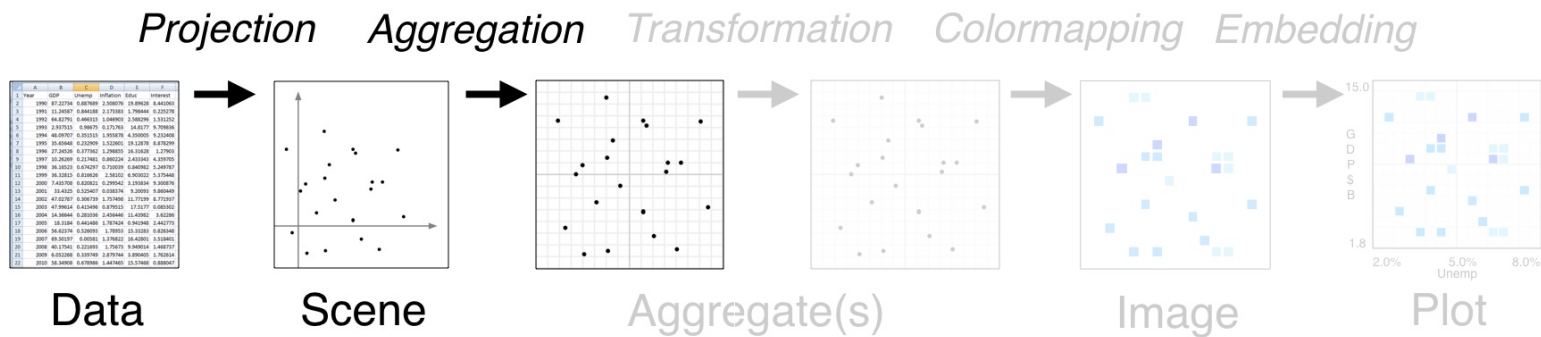

Projection

- Tipos de elementos:
 - Points, line, area, trimesh, polygons, raster, quadmesh

Datashader

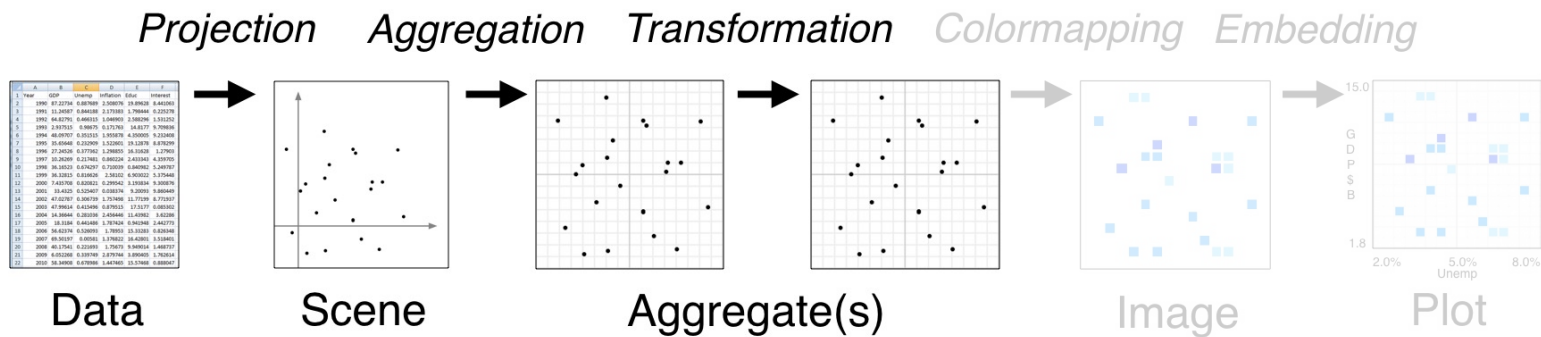

Aggregation

- Tipos de elementos: Points, line, area, trimesh, polygons, raster, quadmesh
- Reduction

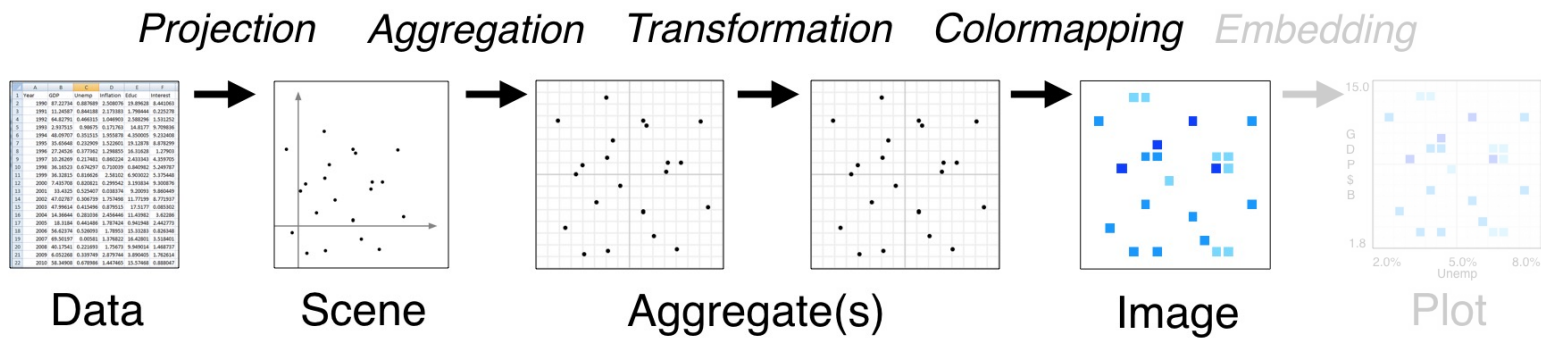

Datashader

Transformation

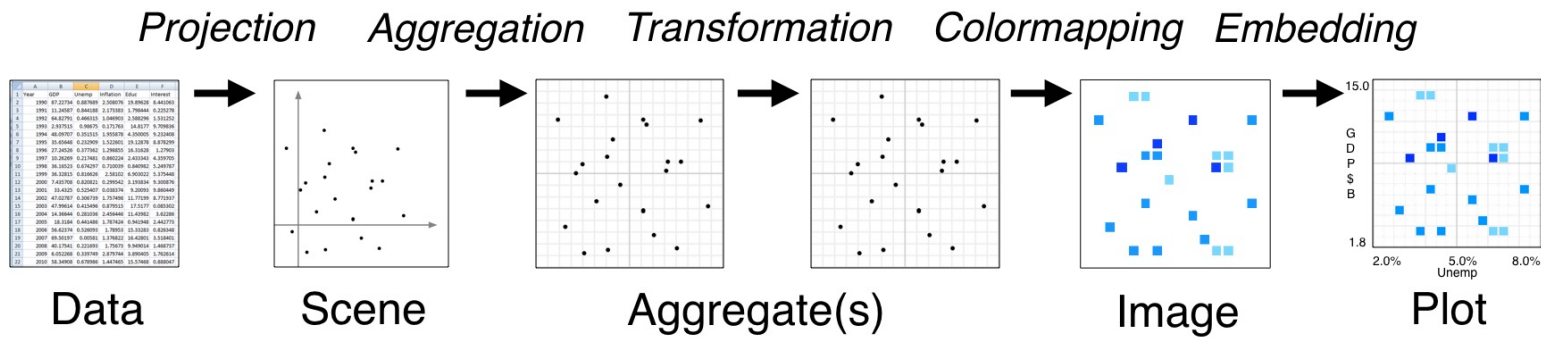

Datashader

Colormapping

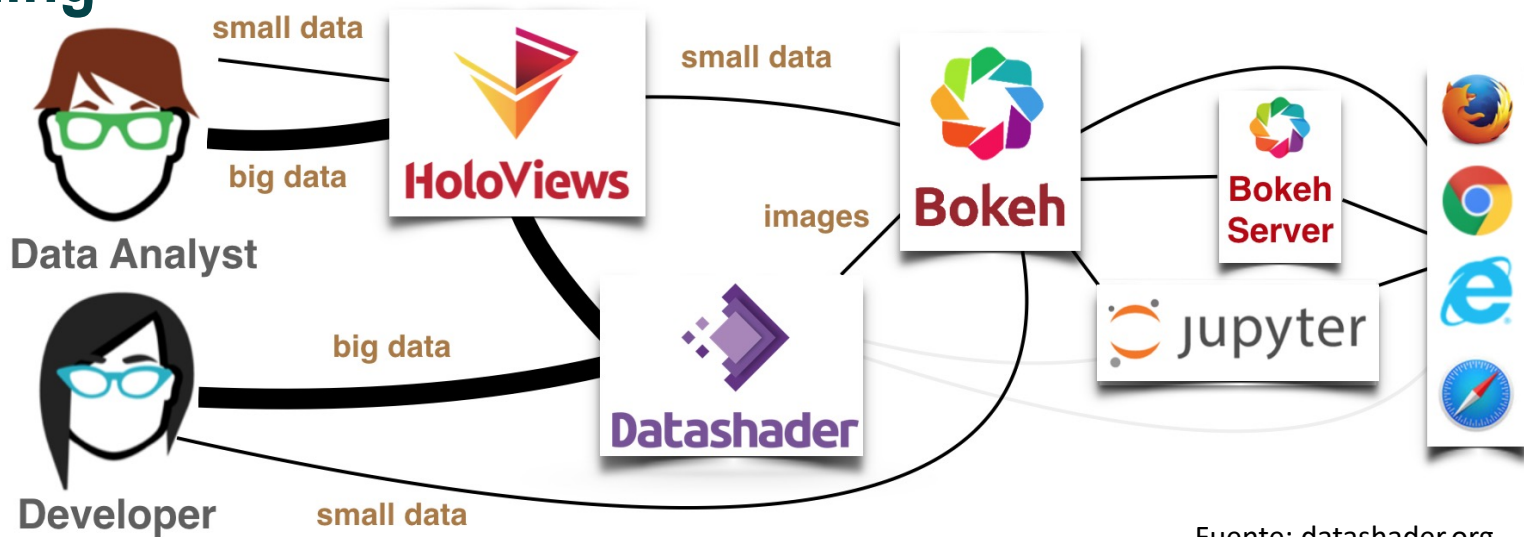

Datashader

Embedding

Datashader

Embedding
